DOROTHY LAMOUR — CONFUCIUS

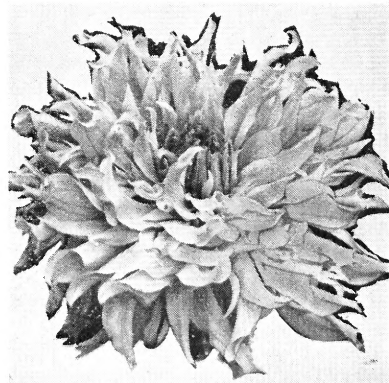

won easily on both occasions; first, the American Home Achievement Medal at the San Francisco Show, and later as Best Flower in the Show at the San Mateo Garden Fiesta. The plant is a medium tall grower and the giant blooms are produced on long, strong, graceful stems. It is a free and an early bloomer. In the picture above, Confucius is the lower flower. We had not intended to introduce it this season, but have been prevailed upon to do so, and so are releasing the limited stock of it that we have.....**\$20.00 Net**

DOROTHY LAMOUR—Straight Cactus. True orange. This dahlia is of a color that we have been wanting for a long time and are especially pleased in that it has come in cactus form. It will not grow larger than 9 or 10 inches in diameter but is a very deep flower and has a very full deep center. We know of no other dahlia that has greater charm. It will bloom early and abundantly through the whole season on a tall strong-growing plant. At the San Francisco Show it won the Sunset Medal and also as Best 3-Year-Old. Dorothy Lamour is the upper flower in the picture above**\$15.00 Net**

YOTO—Informal Decorative. Amber yellow with shadings of pink. This dahlia was sent to us from Japan and as far as we know no one else in this country has it. It has proven to be one of the finest varieties we have ever seen, a rugged grower yielding quantities of extremely large perfect blooms. The flower is of unusual formation with many narrow curling petals, very full and deep. It won for us as Best Twelve Blooms at the San Francisco Show. **\$15.00 Net**

For further information on our new introductions for 1941, we would refer you to Col. R. T. Eddy's Roll of Honor in December "Flower Grower" and Mr. J. W. Johnston's "Dahlia Futurity" in January "House Beautiful."

OUR NEW INTRODUCTIONS

★
CONFUCIUS — Semi-Cactus. Oriental red (bright coral red). A dahlia of so bright and striking a color already has many points in its favor on the exhibition table for color alone. When in addition the form of the flower is ideal and it has size to compete with the very largest, it is a sure winner. Entered in competition but twice, this new variety
